Roediger® Vacuum Valve VV 50

Part No.: 330012200

1. Roediger® Vacuum Valve VV 50

1.1 Product Application

The Roediger® Vacuum Valve (VV) is used in conjunction with Roediger controllers to take domestic sewage water. Its use is mainly in vacuum sewerage.

1.2 Technical Data

Size / Weight / Material

Height	210 mm
Diameter	125 mm
Weight	c. 800 g
Housing	ABS
O-rings	Silikon / NBR
Control membrane	EPDM
Max.temperature resistance of the pumped medium	75°C / 167°F
Backflow prevention	c. 20 cm

Work Range

c. -0,22 bar to -0,7 bar

Equipment

Reed contact	400005948
Stroke counter	312031000
Holder for Stroke counter	312031500
Screws for Holder	381112100
Controller	(each area of use)
